

Concepcion Powell
Economic Development Consultant

RECEIVED--CITY CLERK
2013 AUG 14 PM 5:03

Today more than ever, your vote will help mark the beginning of the transformation of our city. Our residents are enduring turbulent times derived from failed leadership and a long history of self-serving insider politics, we did not land in bankruptcy overnight. Today our city residents cannot afford to go back to those that have brought us here. We deserve true proven leaders who understand the challenges, have the capacity to tackle the issues and can bring stakeholders together on a path to prosperity. My plan will bring back fiscal stability that can sustain services that are essential for our people. Having lived in the County of San Bernardino for over 30 years and having contributed to city projects that have brought development and revenues to our city, I know what worked and what failed. I will work with private sector leaders and all government officials to bring every single penny needed to keep our city services viable for our children our seniors and all who need our city.

My Top Priorities:

- Public Safety, thru City and community partnership.
- Economic Development, thru fiscal stabilization and good job creations.
- Resident services, thru smart planning and strict oversight
